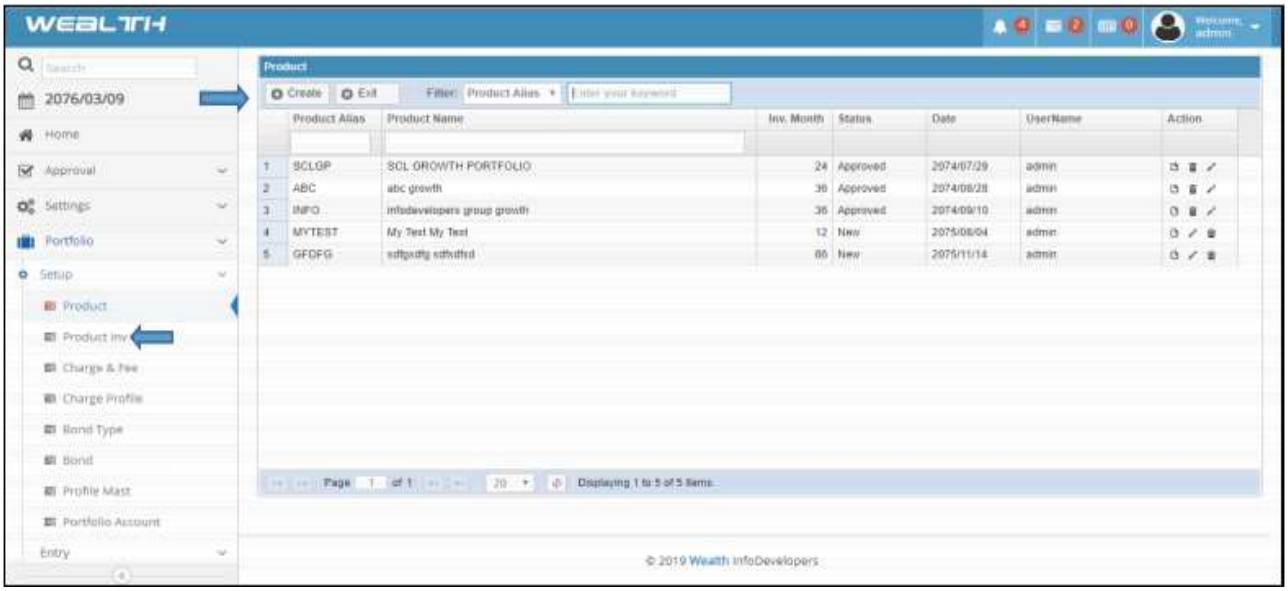
Product - User Manual

Product is like a scheme. In which scheme user want to open portfolio account. Scheme may be like a different product selection availabe for investment. Product may vary according to the companies.

Product front screen consists of product alias, product name, investment month, status, date, user and "Action". Action has three options: View, Edit and delete but approved data cannot be edited.

By clicking on "Create" user can create the product.

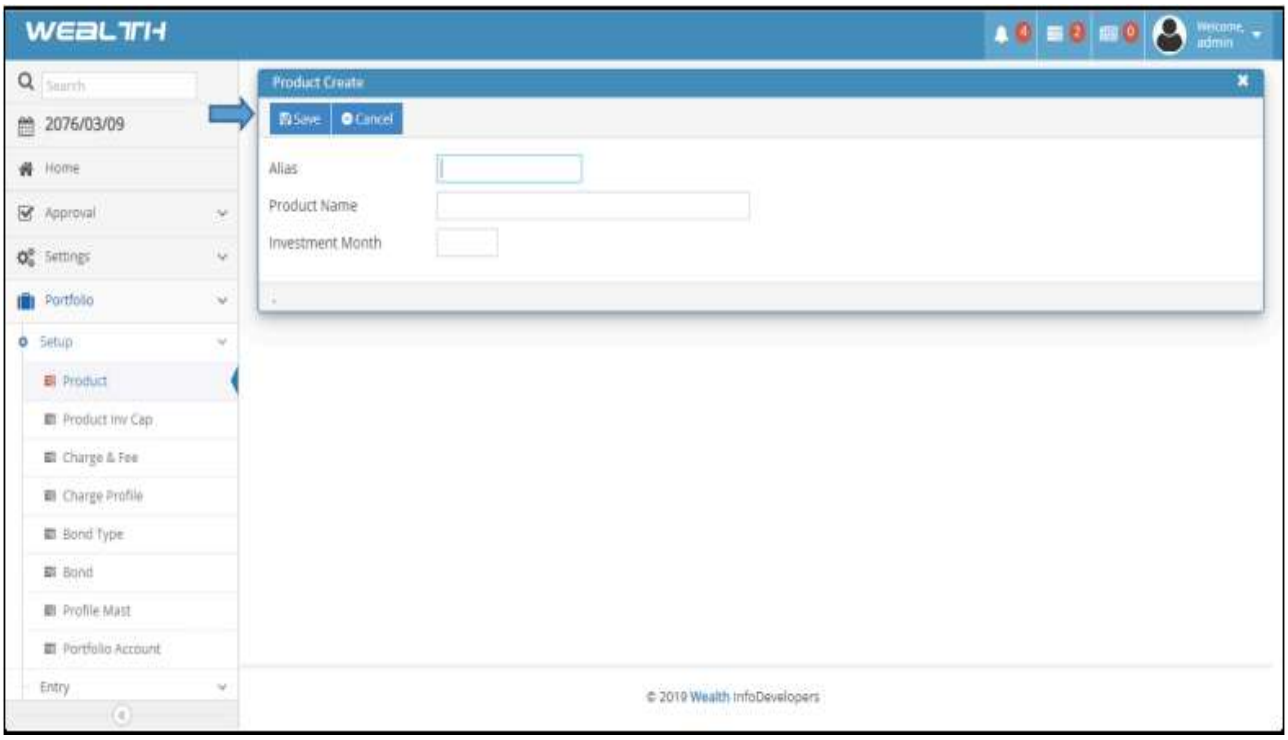


Here after clicking "Create", the following screen will displays, where;

*__Alias__ means the indication or the shortcut name of the product.

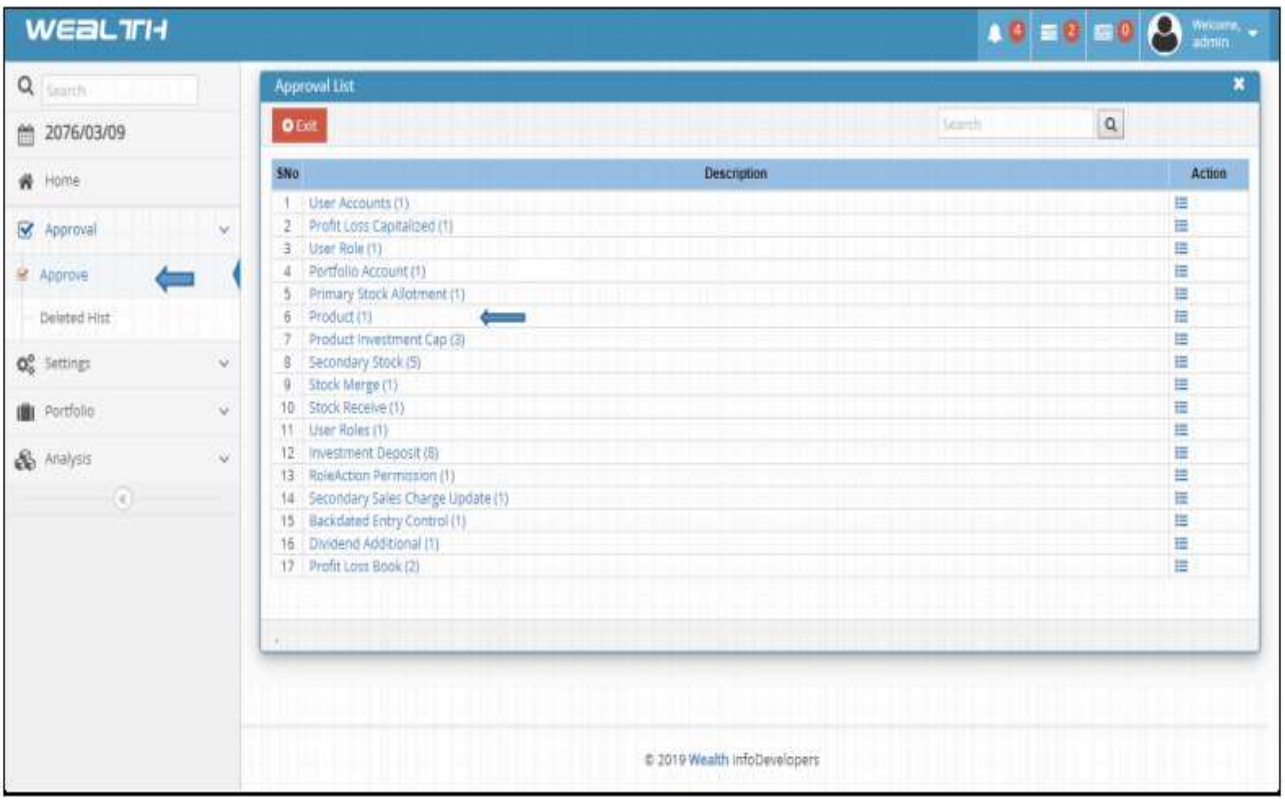
*Product Name is the full name of the product denoted in **Alias**.

*Investment Months denotes the number of months investment made for the product, like: 12 months, 18 months, 24 months.

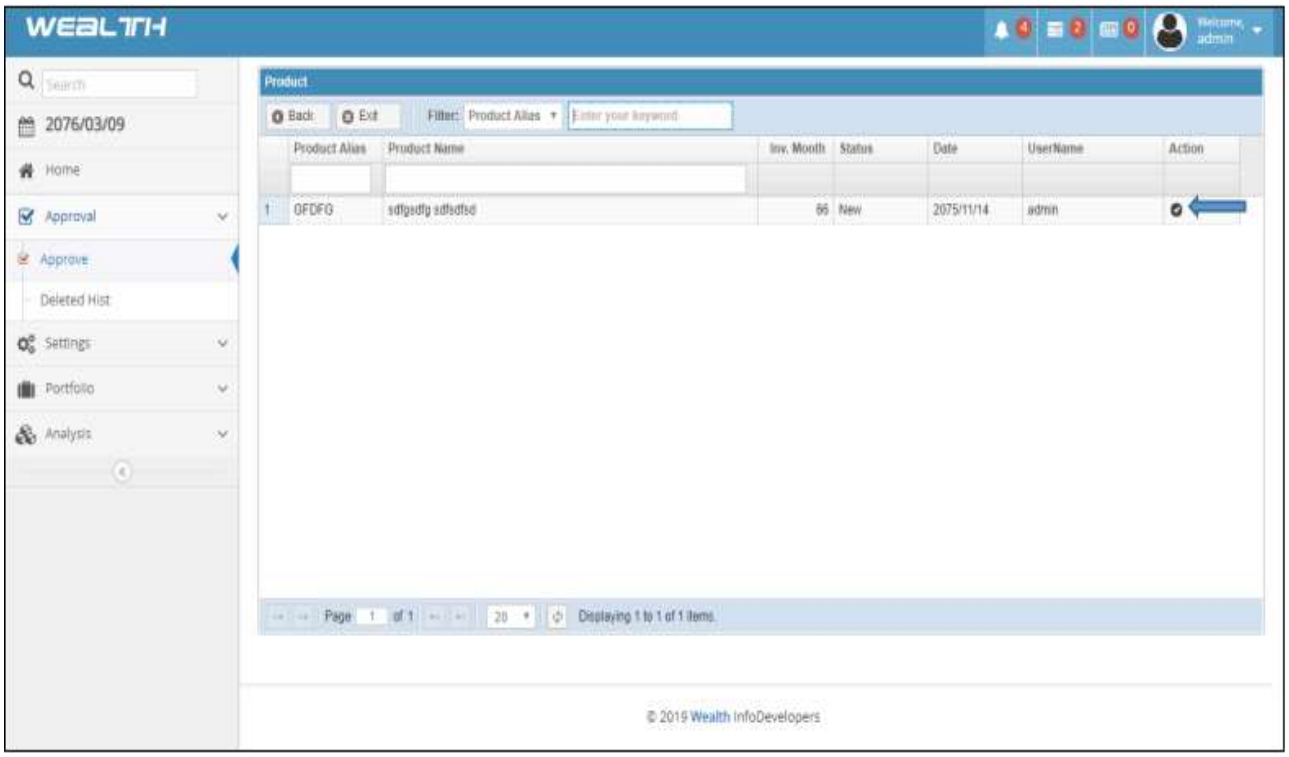


When the form is filled with correct data then click the **Save** button.

After saving the form go to the **Approval** section below the Home and click on **Approval** and then click on **Approve**. And select the **Product**.



After the selection of Product; Click on the "Action" button on the right side of the displaying screen.



After clicking on Action; The screen for the Product Approval is displaying. Clicking on **Approve** button, the forms filled previously on the Create Screen will Approve and the New Product will create.
