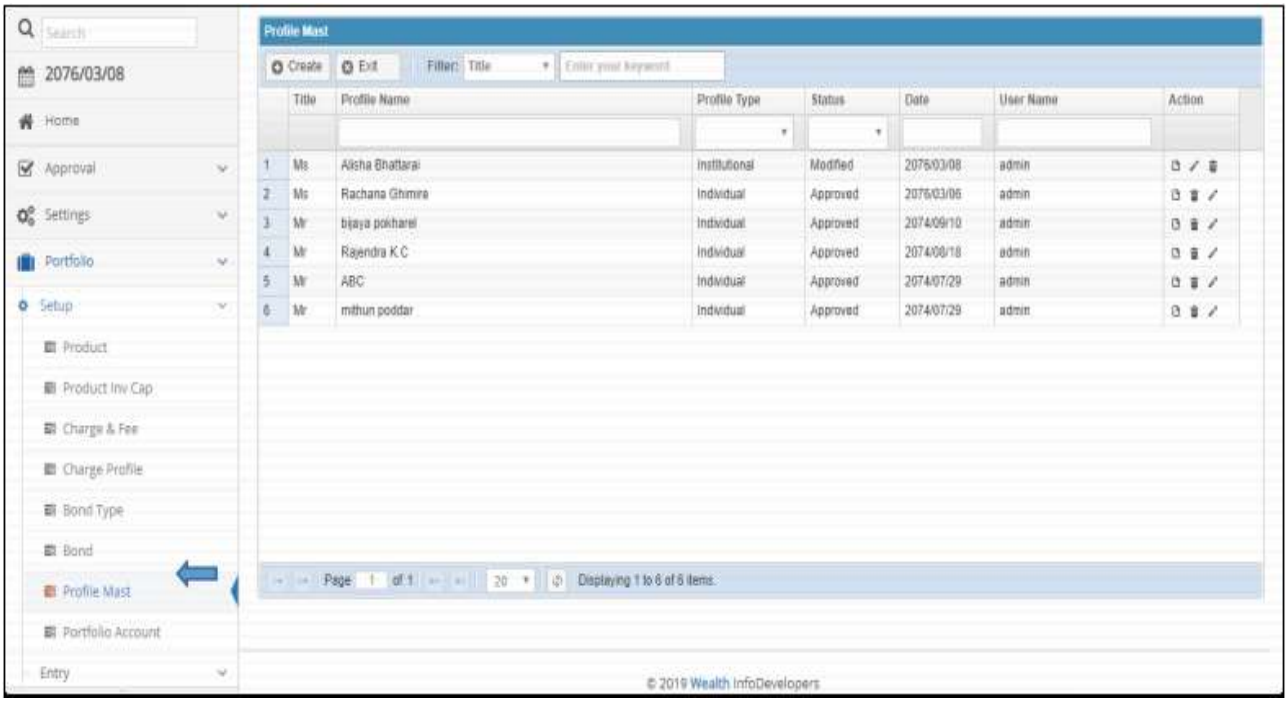
Profile Mast - User Manual

Profile Mast is the creation of client profile. Profile mast contains the client detail, address, and types. The client might be an individual or an institutional.

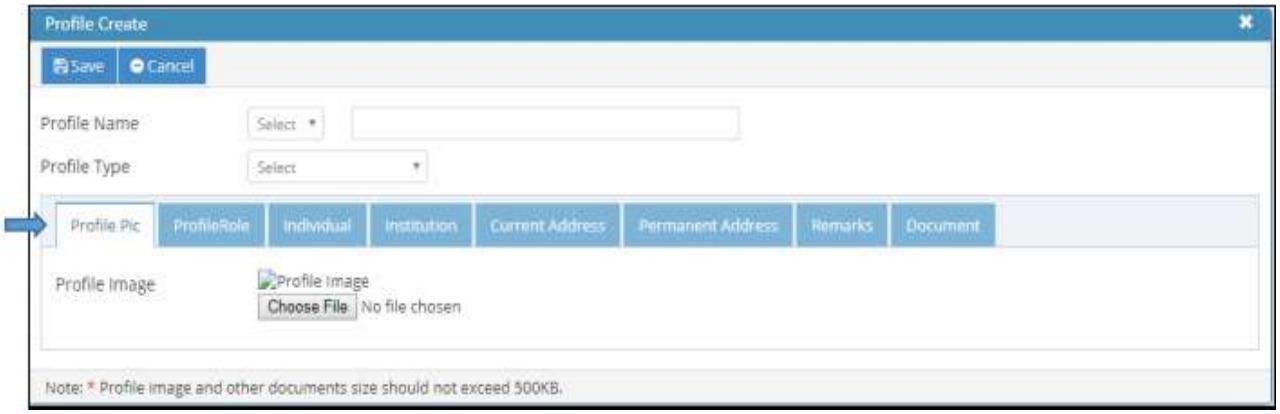
The list of created profile is displayed here at the Profile Mast screen. From "Action", admin or PMS manager can see the detail, edit the profile and delete the profile if necessary. Internal User can create a new profile from create button.



An admin or Internal User can create a new profile from "**Create**" button. When the create button is clicked the following fields are displayed and the fields must be filled out correctly. The first field is profile name, profile type and profile pic.

*Profile type provides the default drop down menu whether the client is an individual or an institutional.

*In Profile image section an admin can select the client image for the profile.



There are 5 roles in this software. The roles are divided between internal users and external users. The external users are: Agent, Customer and Nominee.

*Agent: Two common types of agents are attorneys, who represent their clients in legal matters, and stockbrokers, who are hired by investors to make investment decisions for them.

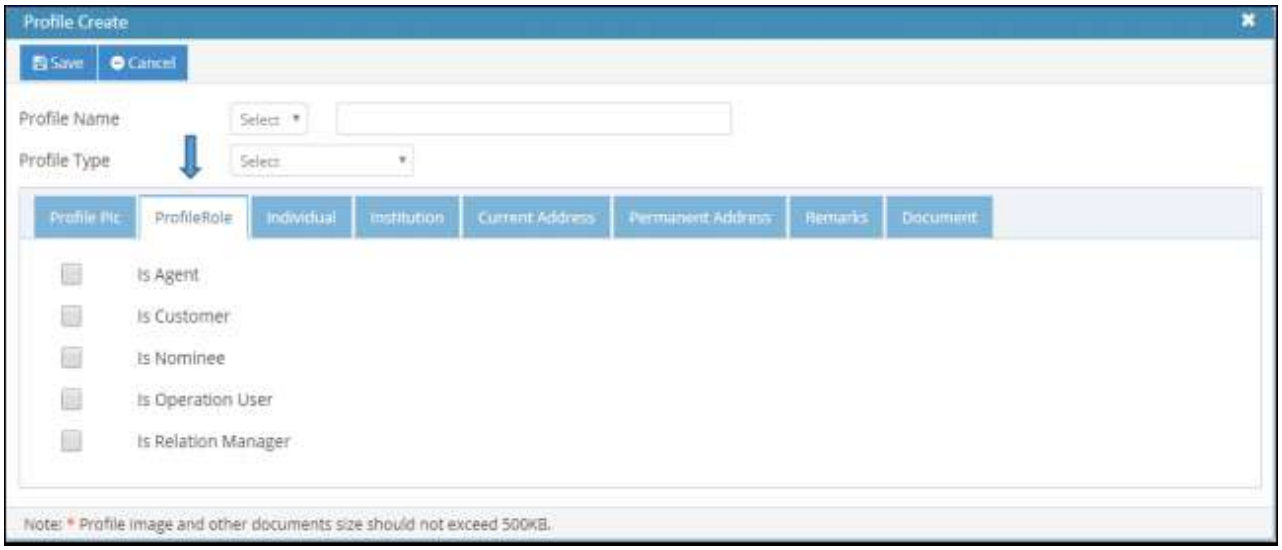
*Customer: Customer are the individual who use the service of the business. Like: PMS service user individual or institution.

*Nominee: A nominee is a person that customer can list in their investment application or bank application as the person who can receive the proceeds of customer account in case of their unexpected death. Nominee can be anyone who deem to be the first relative – this could mean any one of the parents, spouse or sibling.

The internal users are: Operation User and Relation Manager.

*Operation user: Operation user are those internal user who use the system. Internal users perform some task and it is approved by admin or authorized person.

*Relation manager: Relationship manager work to improve business relationships with partner firms and clients.



In an individual segment, the detail of the individual should enter.

Here,

*Date of birth is the individual client birth date.

*Gender denotes male, female, other, not accepted(if the provided option do not match to your gender).

*Marital options drop down menu gives the options of (married ,unmarried, divorce, other, not applied(if any other option do not match to your marital status),

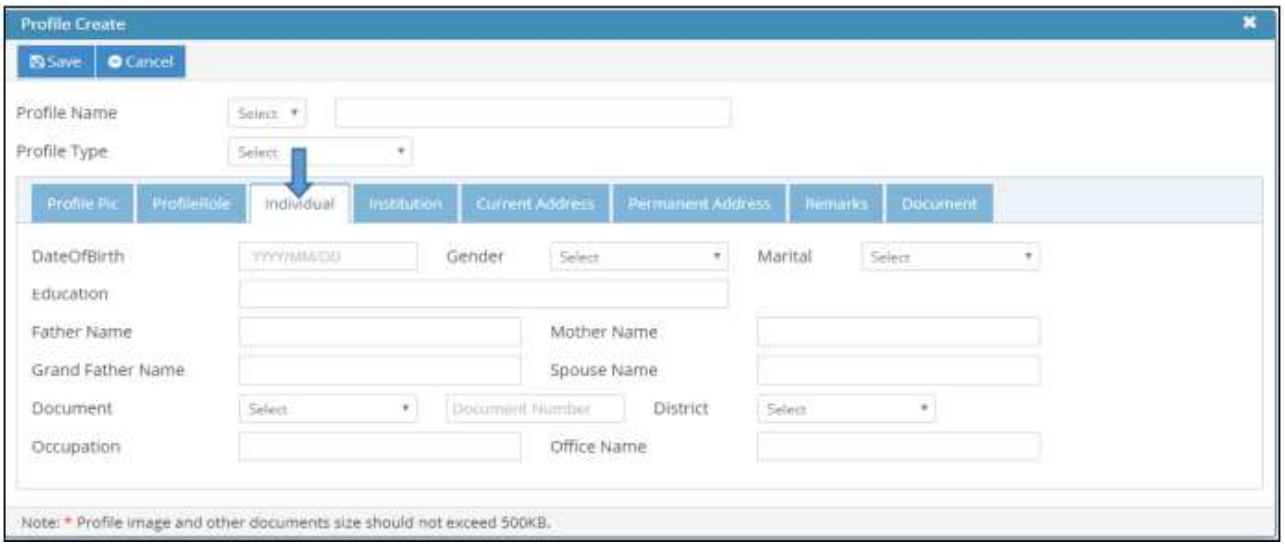
Education means the level of education in their field of study.

*Father's name, mother's name, grandfather name, spouse(Wife) name as per the client information.

*Document means the client document issued by the government like:Citizenship card or passport or driving license. select from the dropdown menu according to the available client document. After the selection of the available document the document number should be enter to the next field. After that the document issue district should select from the available dropdown menu.

*Document issue date is the date when the selected document was issued.

*Occupation is the job or profession of the client. and the office name is the name of the office where the client work.



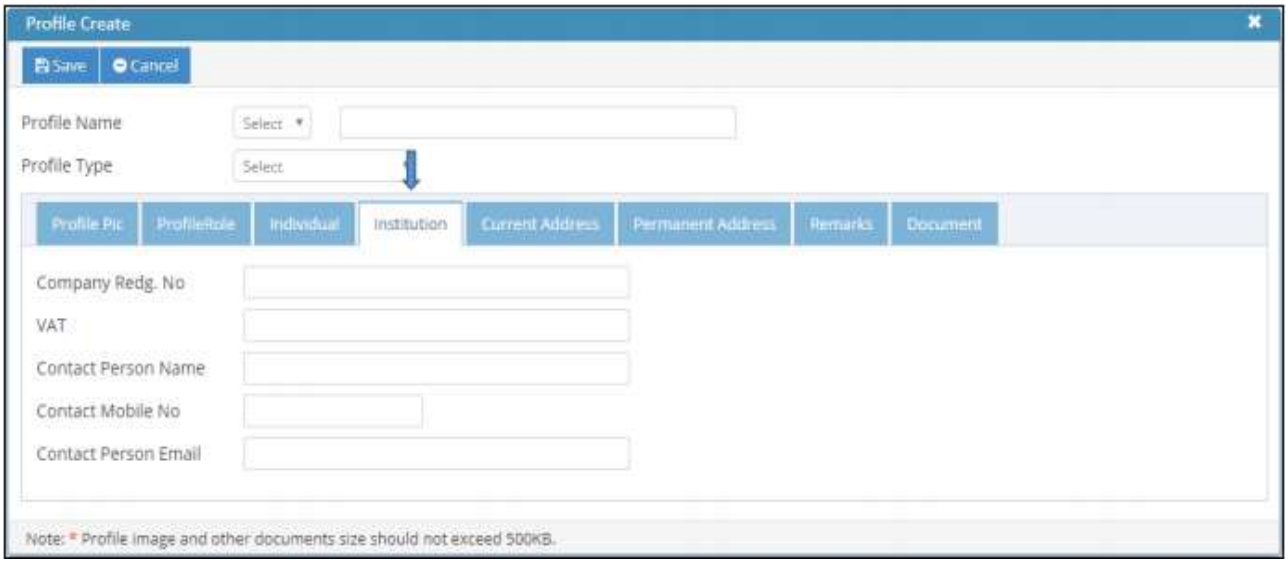
If the client is an institution then should fill the Institutional form leaving the Individual one.

In the Institution form: Company Redg. No is the registration number of the company in the concern registration office like OCR, SMEs and others.

*VAT is the value added tax number registered in tax office.

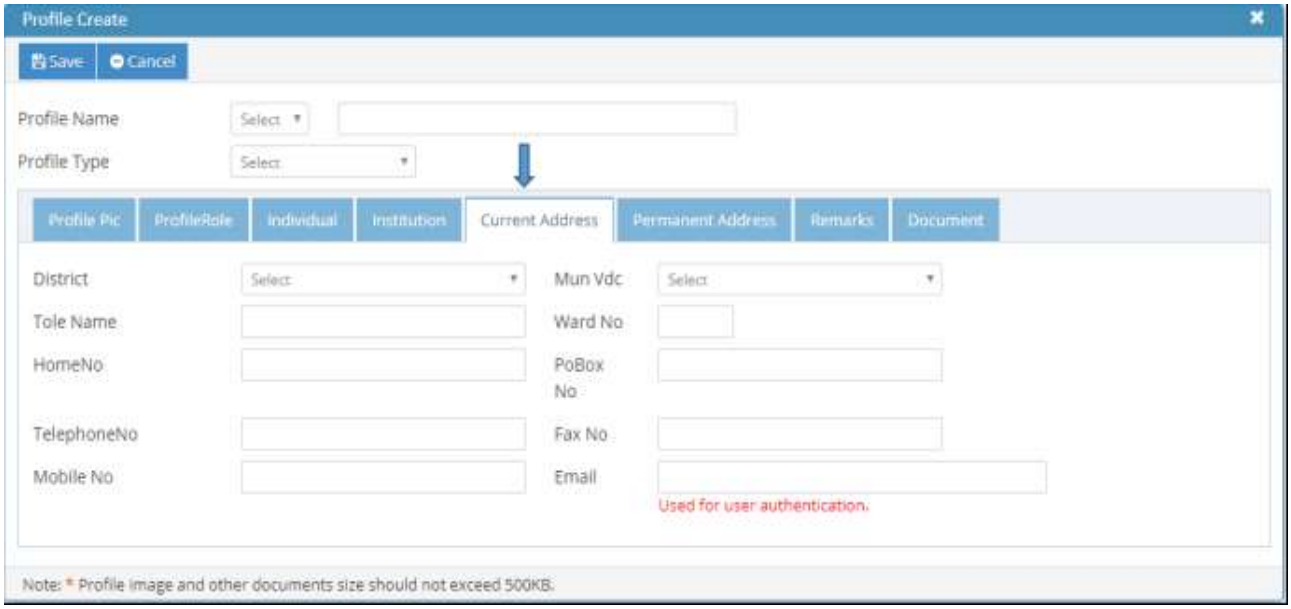
*Contact person name is the communication person of that institutional client with whom can contact in need.

*Contact mobile number is the contact number of that contact person and Contact person Email is the mail address of that contact person of that institution.



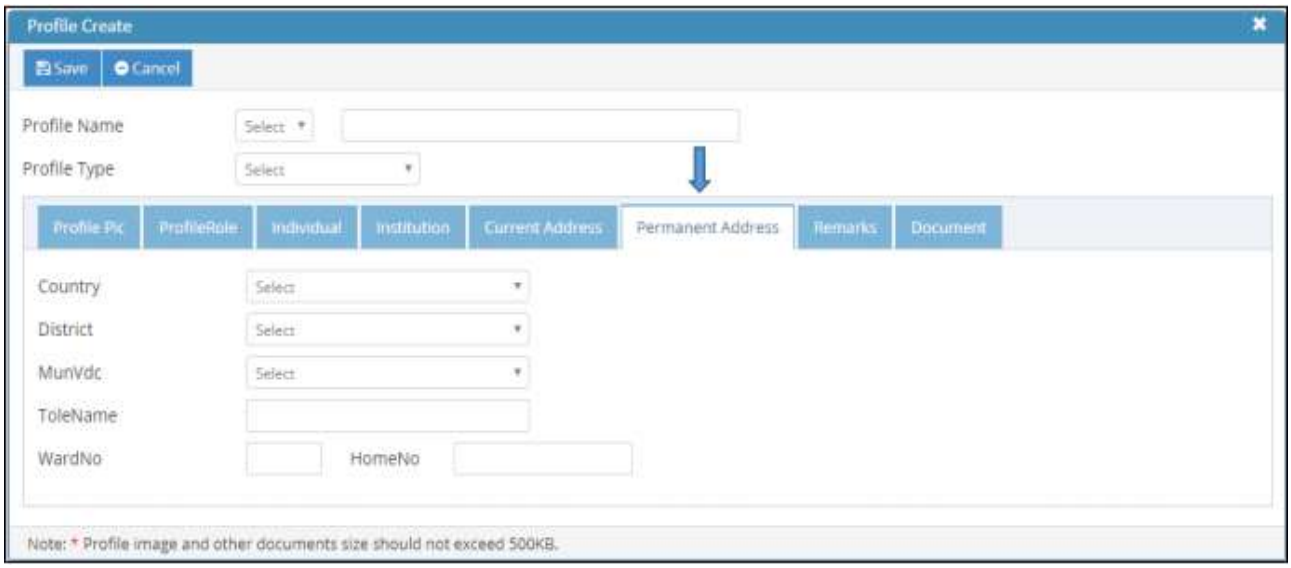
In the current address section an admin should enter an individual and an institutional client both address living or oprating temporarily.

The form contains district name, municipality/Vdc name, tole name, ward no, home no, PoBox no, telephone no, fax no, mobile no, Email (Email is required for user authentication).



In the permanent address section an admin should enter an individual and an institutional client both address living or oprating permanently. sometimes the current and permanent address are same.

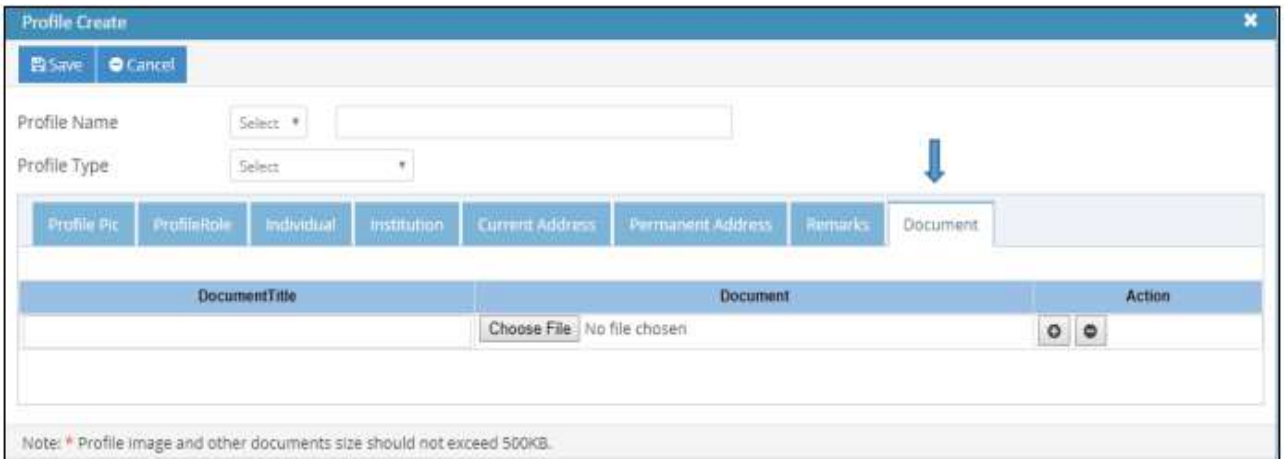
The form contains permanent Address like country client live in or institution operating, district, Mun/Vdc, tole name, ward no and last home number.



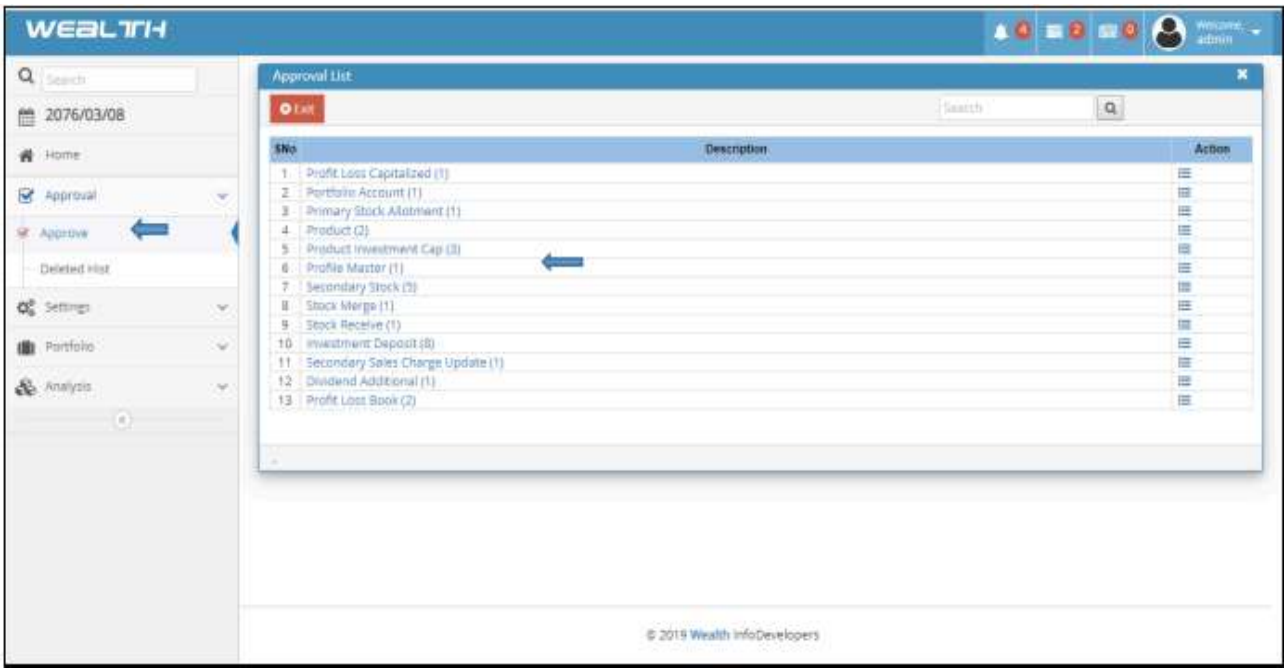
After the Permanent Address an admin move to the Remarks section. Remarks is a piece of information that is not entered in all these sections and new information than others.

In the document section an admin should attach the client document and save it. Here admin can add multiple document.

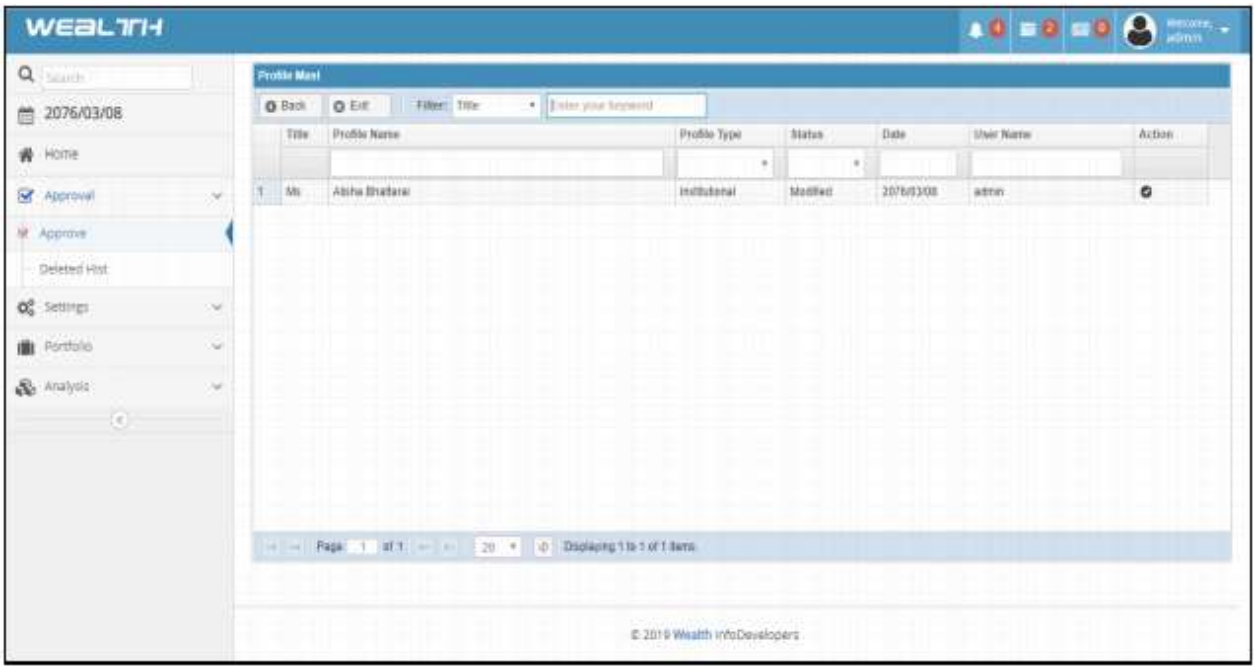
When the form is filled with correct data then click the **Save** button at the top left side of the screen.



After saving the form go to the **Approval** section below the Home and click on **Approval** and then click on **Approve**. And select the **Profile Master.**

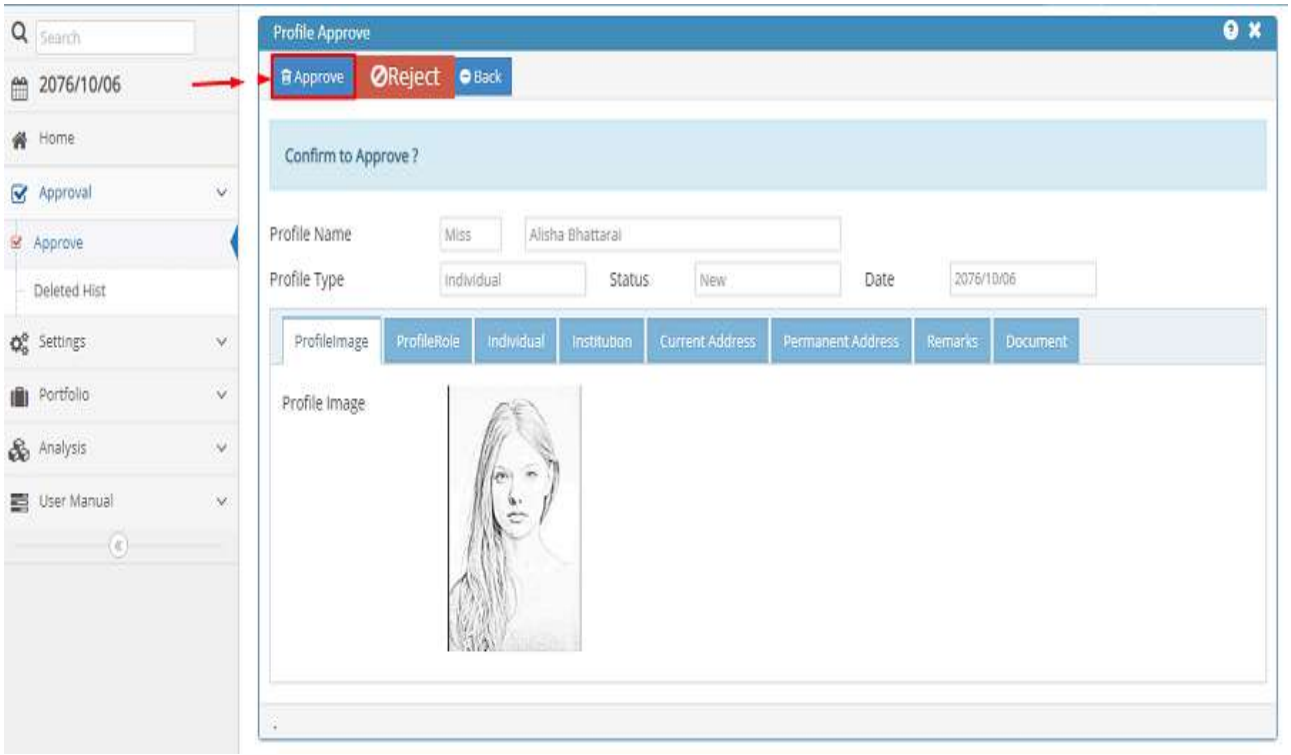


After the selection of Profile Master; the screen for the Profile Mast will display then Click on the "Action" button on the right side of the displaying screen.



After clicking on Action; The screen for the Profile Mast Approve or Reject or update is displaying. Clicking on **Approve** button, the forms filled previously on the Create Screen will Approve and the Profile Mast will create.

If the profile is Reject then the pop-up screen will display and the related person will enter the reasons for rejection.



After entering the cause for rejection then click "yes". After the rejection the PMS manager or an admin has to re-enter or correct the mention rejection and do the same process for the Approve.
